2023 began with key framework providers for sustainability disclosure upgrading their frameworks to enable better ESG disclosure and many securities commissions making watertight norms to avoid greenwashing. The Science Based Targets initiative (SBTi) has developed scope 3 target setting while EU’s expert advisors openly opposed the inclusion of gas and nuclear energy into the EU Taxonomy guidelines.
The Institutional Investors Group on Climate Change (IIGCC) and the Transition Pathway Initiative Global Climate Transition Centre (TPI Centre) introduced a net-zero standard for banks. This standard is based on factors such as emissions performance, decarbonization strategy, targets, climate solutions, and policy engagement. The UK and France have jointly launched the UK-French Global Biodiversity Credits Roadmap. Federated Hermes welcomed Sian Long as a Sustainable Investment Director for its impact and sustainable equity strategies. JPMorgan introduced a solution allowing investors to access and integrate ESG data from multiple providers. VCMI launched the Claims Code of Practice, which provides guidelines for companies involved in carbon markets and making climate-related claims.

The International Sustainability Standards Board (ISSB) released its first two finalized standards, S1 General Requirements for Disclosure of Sustainability-related Financial Information and S2 Climate-related Disclosures. These standards aim to establish a comprehensive global baseline for sustainability disclosures, specifically targeting investors and financial markets. The ISSB standards are built on previous efforts by the Climate Disclosure Standards Board (CDSB), Task Force on Climate-related Financial Disclosures (TCFD), Value Reporting Foundation, and Sustainability Accounting Standards Board (SASB). Australia is planning to implement mandatory climate-related financial disclosure requirements for companies and financial institutions from 2024, while voters in Switzerland have approved a net-zero law. On the controversial side, Shein and Temu have been found to violate the US tariff law and evade human rights reviews on their imports.

IIGCC and TPI publish net-zero banking standards

The Institutional Investors Group on Climate Change (IIGCC) and the Transition Pathway Initiative Global Climate Transition Centre (TPI Centre) introduced a net-zero standard for banks. This standard is built on factors such as emissions performance, decarbonization strategy, targets, climate solutions, and policy engagement. The standard is intended to supplement the net-zero investment framework and foster constructive dialogue with banks on ongoing climate commitments.

Hong Kong proposes green taxonomy

The Hong Kong Monetary Authority (HKMA) intends to create a green taxonomy to facilitate Hong Kong’s role in connecting green financial flows between Mainland China and the rest of the world. It aims to develop a prototype for four initial sectors—electricity, gas, steam, and air conditioning supply, transportation and storage, water supply, sewage, waste management, and cleanup activities, and construction.

EU ESG rating proposal draws attention

The European Union (EU) required that ESG rating companies be authorized to provide ESG ratings in the EU. To continue serving the EU market, non-EU ESG rating providers must reevaluate their organizational structures. They can do this by either creating an EU-authorized entity to issue own their ratings or by implementing the new “endorsement” proposal, which would enable an EU-authorized entity to certify ratings issued by its non-EU affiliate.

EU relaxes sustainability reporting regulations

The European Commission (EC) recommended a series of amendments for enterprises subject to the European Sustainability Reporting Standards (ESRS). The proposals aim to reduce the reporting burden for small enterprises and first-time reporters by extending the phase-in dates for key sustainability indicators. Furthermore, firms now have greater flexibility in the ‘disclosure requirements’ regarding the financial implications of sustainability concerns and stakeholder engagement.

FCA worries over greenwashing in the sustainability-linked loans market

The Financial Conduct Authority (FCA) wrote to banks raising “its concerns regarding potential greenwashing in the sustainability-linked lending (SLL) market.” While these loans are critical finance tools for the transition to a low-carbon economy, numerous issues are impeding widespread adoption and market expansion. Conflicts of interest may occur if banks accept weak targets and include the loan in their sustainable finance quota.

The UK and France launch an initiative to expand the biodiversity credits market

The UK and France announced the UK-French Global Biodiversity Credits Roadmap, to expand the market for companies to buy biodiversity credits and mobilize finance for projects contributing to nature recovery. Companies will be able to fund initiatives that help preserve and restore natural habitats, such as grasslands, oceans, and rain forests, alongside measuring environmental activity and identifying its location and source.

PEOPLE MOVEMENTS
Thought leadership through key hires

Companies across the globe are demanding analysts, strategists, and knowledgeable professionals to understand and drive their ESG data, strategies, and solutions for a range of stakeholders. This section brings you the latest movements of such highly skilled professionals in the ESG sector.

Federated Hermes welcomes Sian Long as a Sustainable Investment Director

Federated Hermes hired Sian Long as its Sustainable Investment Director for its impact and sustainable equity strategies. She will be a client-facing representative, working on Federated Hermes Sustainable Global Equity, Impact Opportunities, SDG Engagement, and Biodiversity strategies.

LOIM appoints Dr. Marc Palahí as the Chief Nature Officer

Lombard Odier Investment Managers (LOIM) welcomed Dr. Marc Palahí as the Chief Nature Officer to develop the firm’s recently launched dedicated sustainable investment platform, holistIQ Investment Partners. He is an expert on forests, global change, and circular bioeconomy. Dr. Palahí will be working on the nature strategy within the platform and integrating nature considerations across the firm.

Pemberton hires Niamh Whooley as the Managing Director and Head of Sustainable Investing

Pemberton named Niamh Whooley, from Goldman Sachs, as its Managing Director and Head of Sustainable Investing. She would be responsible for expanding the firm’s sustainability strategy, developing Pemberton’s sustainable investments, and coordinating with clients and stakeholders.

AXA IM Alts names Laurent Lavergne as its pioneer Global Head of Sustainability

AXA IM Alts hired Laurent Lavergne as its first Global Head of Sustainability. He will oversee the company’s ambitious decarbonization strategy and sustainability strategy across all its business lines. He will take over the responsibilities of the current Global Head of Responsible Investment and serve as a voting member of the investment committee for direct investments.

Standard Chartered appointed Dana Barsky as the Global Head of Sustainability Strategy and Net Zero

Standard Chartered appointed Dana Barsky as the Global Head of Sustainability Strategy and Net Zero. She would drive key sustainability agenda items that include overseeing the Group’s delivery of its Net-Zero commitments across Scope 1, 2, and 3 emissions and accelerating sustainability integration across the Group’s global businesses. She will also help in creating new sustainable partnerships.

Howden hires Rowan Douglas as the CEO, Climate Risk & Resilience

Howden appointed Rowan Douglas as the CEO, Climate Risk & Resilience. His role is to build an expert, full spectrum function to support the group worldwide, embedding climate and resilience across its specialties and regions. He would prelude further significant investment to create a platform for the future that meets the opportunity and scale of market demand over the coming decades.

PRODUCTS & SERVICES
Industry demands met with sustainable investment products and ESG data & services

As businesses work toward getting ESG-compliant and investors channel their funds into ESG products, the market is gearing up to facilitate all forms of products and services. In this section, you will find news on key products and services including the launch of climate change-targeted funds as well as ESG data and services.

VCMI launches a new carbon market claims rulebook

The Voluntary Carbon Market Integrity Initiative (VCMI) introduced the Claims Code of Practice to provide guidelines for companies engaging in carbon markets and making climate claims. The code aims to build companies’ market confidence to accelerate corporate participation in voluntary carbon markets as part of their net-zero strategies. It introduces three tiers of claims (Platinum, Gold, and Silver) and outlines the steps for making credible claims, including meeting criteria, selecting high-quality carbon markets, disclosing information to support the claim, and conducting independent validation.

LAWS, POLICIES, AND REGULATIONS
Major policies that pave the way to disclosure in the industry

Policy reformation and amendments in the ESG reporting space are at an all-time high. What started as a voluntary disclosure is now making its way to becoming mandates. Be it sustainable investments standards or climate change reporting mandates and transparency in governance practices, we bring you the latest regulatory updates in this section.

The first ISSB reporting standards are here — what that means for investors

Investor implications of ISSB standards

The International Sustainability Standards Board (ISSB) published its first two finalized standards, S1 General Requirements for Disclosure of Sustainability-related Financial Information and S2 Climate-related Disclosures. These standards aim to provide a comprehensive global baseline of sustainability disclosures, catering to investors and financial markets. The ISSB standards are built on previous work from the Climate Disclosure Standards Board (CDSB), Task Force on Climate-related Financial Disclosures (TCFD), Value Reporting Foundation, and Sustainability Accounting Standards Board (SASB).

European Commission proposal on ESG rating activities

EC proposes ESG rating rules

The European Commission (EC) planned to regulate ESG rating providers to improve transparency and integrity in the market. The proposal aimed to prevent conflicts of interest and align ESG views with assessments. Approval from the European Parliament and EU leaders is required for implementation.

Source: LEXOLOGY
IPSASB begins development of climate-related disclosures standard for the public sector

IPSASB develops a climate reporting standard for the public sector

The International Public Sector Accounting Standards Board (IPSASB) developed a public sector-specific climate-related disclosure standard to improve transparency, accountability, and comparability in combating climate change and other sustainability challenges. The standard will establish a Climate-related Topic Working Group and Sustainability Reference Group, requiring global community engagement for its development.

CONTROVERSIES
Global sustainability watchdogs chasing wrongdoers

Do companies follow their ESG commitments? Tracking corporate controversies helps in investment decisions and enables stakeholders to determine whether the companies are being fair to their commitments or merely greenwashing. We bring you the top controversies in this section.

Shein and Temu violate the US tariff law and evade human rights reviews on imports

A House committee issued a report revealing that Shein and Temu have exploited loopholes for importing goods into the US. The report also states that both e-commerce giants are bringing products into the US under Section 321 of the Tariff Act of 1930, which waives import tariffs on goods if their retail value does not exceed USD800. The companies are also facing allegations of human rights abuses in the Uyghur region. According to the committee, Shein is alleged of forced labor in its supplier factories while Temu is allegedly failing to adhere to the Uyghur Forced Labor Prevention Act.

Canada Bread pays fine for price fixing allegations

Canada Bread agreed to pay a fine of USD28mn (CAD50mn) over allegations of fixing the price of various breads, such as sandwich bread, hotdog buns, and rolls. The company was accused of colluding with its competitor Weston Food, as per the Competition Bureau.

Chemours, DuPont, and Corteva pay to settle ‘forever chemical’ claims

Chemours, DuPont, and Corteva agreed to pay USD1bn to settle claims that ‘forever chemicals’ contaminated public US water systems. The forever chemicals, also known as PFAS, are hazardous to human health. The three companies are facing thousands of lawsuits alleging that toxic chemicals were used in manufacturing, which later polluted the environment.

US regulator alleges Amazon of deceiving consumers into enrolling in Prime

The U.S Federal Trade Commission charged Amazon for deceiving consumers into enrolling for its paid subscription program, Amazon Prime, through a secret project internally called ‘Iliad’. According to the commission’s complaint, Amazon tricked consumers into automatically renewing Prime subscriptions. The company also faced lawsuits accusing its Prime cancelation process of being too complicated.

Source: The Guardian
Home Depot settles California labor lawsuit

Home Depot agreed to settle USD72.5mn over allegations of violations of wage theft. The company was accused of not paying the employees for time spent in the store where they would clock in and for time spent in the store at closing. Home Depot denied any wrongdoing and said, "It agreed to the settlement to avoid the burden, expense, and uncertainty of litigation."

JPMorgan Chase is fined by SEC after mistakenly deleting 47 million emails

SEC fines JPMorgan Chase for deleting 47 million emails

The U.S. Securities and Exchange Commission (SEC) levied a fine of USD4mn against JPMorgan Chase for mistakenly and permanently deleting 47 million emails belonging to its retail banking group. The emails were deleted in June 2019 from about 8,700 mailboxes, including those of as many as 7,500 employees. The company neither admitted nor denied any wrongdoing in agreeing to the civil settlement and adopted its email procedure to avoid a reversion.
